Insight Wins Cisco National Technology Excellence Partner of the Year Award

Tempe, Ariz. – June 18, 2009 – Insight Enterprises, Inc., (“Insight”) a leading, global provider of technology solutions, announced today that it is the recipient of four Cisco Partner Summit awards, including the National Technology Excellence Partner of the Year Award for Connected Real Estate. Cisco unveiled the award winners June 3 at its annual channel partner conference in Boston.

"I have the honor and privilege of recognizing Insight as a Cisco Partner Summit regional award winner," said Wendy Bahr, senior vice president, U.S. and Canada channels at Cisco. “These awards recognize Insight’s performance and accomplishments as a Cisco channel partner in the United States in 2008."

“It’s a great honor for Insight to receive such significant recognition from Cisco,” said Dave Casillo, Insight Senior Vice President of Strategic Partnerships and Marketing. “Networking is a critical component of today’s business strategies. Our clients look to us to help them implement and manage these evolving technologies. These awards showcase Insight’s leadership in providing end-to-end network support, particularly in the connected real estate and public sector verticals.”

Cisco Partner Summit awards are presented at three levels: regional, theater and global. Cisco Partner Summit U.S. and Canada regional awards reflect a partner’s performance in a given geographic region of the United States or Canada.

Insight was recognized with the following awards:

- National Technology Excellence Partner of the Year - Verticals (Connected Real Estate)
- Public Sector Solutions Award - Public Safety
- Enterprise Partner of the Year - West Region
- Security Partner of the Year - South Region

The InsightConnectedSM Real Estate and InsightConnectedSM Sports solutions focus on the cost-effective, sustainable delivery of critical building systems through an IP network. These systems include voice, data and video services, building systems and controls, security and energy management systems and more.
